### GLOBAL LEADERSHIP TEAM

As a leader, you know just how critical quality leadership is to the overall success of any organization, including ours. An effective leadership team provides the vision, guidance and motivation necessary for Lions Clubs International to continue to fulfill its mission of providing quality, relevant service to the global community.

The new Global Leadership Team, or GLT, provides a concentrated focus on active leadership development. Beginning in 2011-2012, the GLT will encourage the identification and development of leaders at all levels of the association, while providing valuable information, guidance and motivation. By encompassing representation at the multiple district and district levels and by including district governor teams, the GLT structure provides a comprehensive global platform for developing more qualified leaders from the club level up, while encouraging regional training and development approaches to address local needs.

A Global Leadership Team Orientation was conducted in Oak Brook in January 2011 to launch this exciting new initiative. Participants in this two-day, interactive session represented the GLT Executive Council, including International President Sid Scruggs III, First Vice President Wing-Kun Tam, Second Vice President Wayne Madden, and GMT/GLT International Coordinator Drs. Ton Soeters, GLT Constitutional Area Leaders, GLT Area Leaders, and GLT Special Area Advisors from around the world. All expressed enthusiasm and optimism about the potential impact of the GLT and re-confirmed their commitment to quality Lions leadership development.

The appointment process related to GLT positions at the multiple district, single district and sub-district levels is underway. The selection of GLT-MD Coordinators and other team members is facilitated by the Council of Governors in consultation with the Council Chairperson and respective GLT Area Leader and/or Special Area Advisor. GLT-D Coordinators and other team members are selected by the District Governor Team in consultation with the GLT-MD Coordinator and respective GLT Area Leader and/or Special Area Advisor. As GLT appointments are for a three-year term (subject to annual confirmation), it is critical that these selections are made in a thoughtful, collaborative manner.

The GLT strives not only to identify and develop future Lions leaders, but to train, educate, mentor and motivate leaders as well. In the end, the efforts of the GLT will ensure our association's future vitality by expanding the pool of skilled Lions leaders and enhancing our ability for effective succession planning.

Many have participated or will soon participate in regional training where the focus is on topics relevant to the specific needs of the area, job-specific requirements of the position of district governor, and selected skills necessary for success.

All have started the individualized phase of the training with the support of their DGE Seminar group leaders. In addition to examining a number of leadership skills through print materials and online resources, they are collaborating with other Lions in their district and creating plans and goals for membership growth, extension, and member care, and are developing a public relations plan for promoting Lions in the district.

Soon all DGEs will gather in Seattle for four motivating and inspiring days where they will learn more about the theme of our incoming international president, Wing-Kun Tam. We hope that all of our district governors will take advantage of this tremendous opportunity to learn, to meet Lions from around the world, and to share ideas and experiences with each other.

**FDI Graduates**

The Leadership Division congratulates the following Lions on their graduation from the Faculty Development Institute. These leaders completed an intensive four-day program focusing on the techniques and concepts that impact the quality and overall effectiveness of Lions leadership development programs. Their dedication to quality leadership development makes each of them a valuable resource for local training programs.

### Tips and Tools

Podcasts are a new resource that has been added to the [Tips and Tools](#) section of the Leadership Resource Center. Podcasts are audio recordings that can be played on a computer with sound capability, or can be downloaded to play on an iPod or mp3 player. The recordings feature Lions leaders and trainers sharing their ideas on the Qualities of an Effective Leader at the international, district or club level.

### Bright Idea

What to do after the Regional Lions Leadership Institute is over? Many institute coordinators assign homework! This lets the participants know that the topics covered during the institute are relevant in their daily lives and that learning is not over. Dialogue continues either by telephone or email between the institute faculty and the participants regarding the assigned homework. This ongoing interaction is important as the participant knows there is someone available to discuss and help resolve important issues. What a Bright Idea for maintaining learning momentum after a training session.

### We want to hear from you!

Our objective with *The LEADER NETWORK* is to provide you with information and ideas you can use in your leadership development efforts. If you have a Bright Idea, suggestions for future issues or a specific topic you would like to see addressed in the next issue (August 2011), please let us know. Your comments will be welcomed at [leadership@lionsclubs.org](mailto:leadership@lionsclubs.org)
